

	QUALITY POLICY	Wersja 1	Strona nr 1
			Liczba stron 1

The main goal of our company is to sell products within the sectors of international humanitarian and development aid, civil defense, crisis management, emergency medical services and uniformed services. Trade is conducted in a competitive manner while ensuring the required quality of manufactured products.

We obtain the required quality by:

- Involvement of employees in the production of products that meet customer requirements.
- Establishment of partner relations with the client, based on meeting expectations and requirements.
- Proper selection and control of the reliability of suppliers and their products.
- Implementation and maintenance of a quality management system that allows good work organization that gives satisfaction to our clients and employees.
- Monitoring trends on the market and launching new products.
- Continuous improvement of the effectiveness of the quality management system and meeting the applicable requirements.

Quality serves to achieve the strategic goal of a positive economic result and expansion on the domestic and international markets.
